Dear Rob-

Well it's been real fun in P.E. With you. You have such the dirty foul mouth. Anyways have a really great summer. Take care of yourself. See you next year. Ciao! allison (11

Rob,

Even though we barely know each other, I still think you're a really nice guy. Have a nice summer!

love
Amy

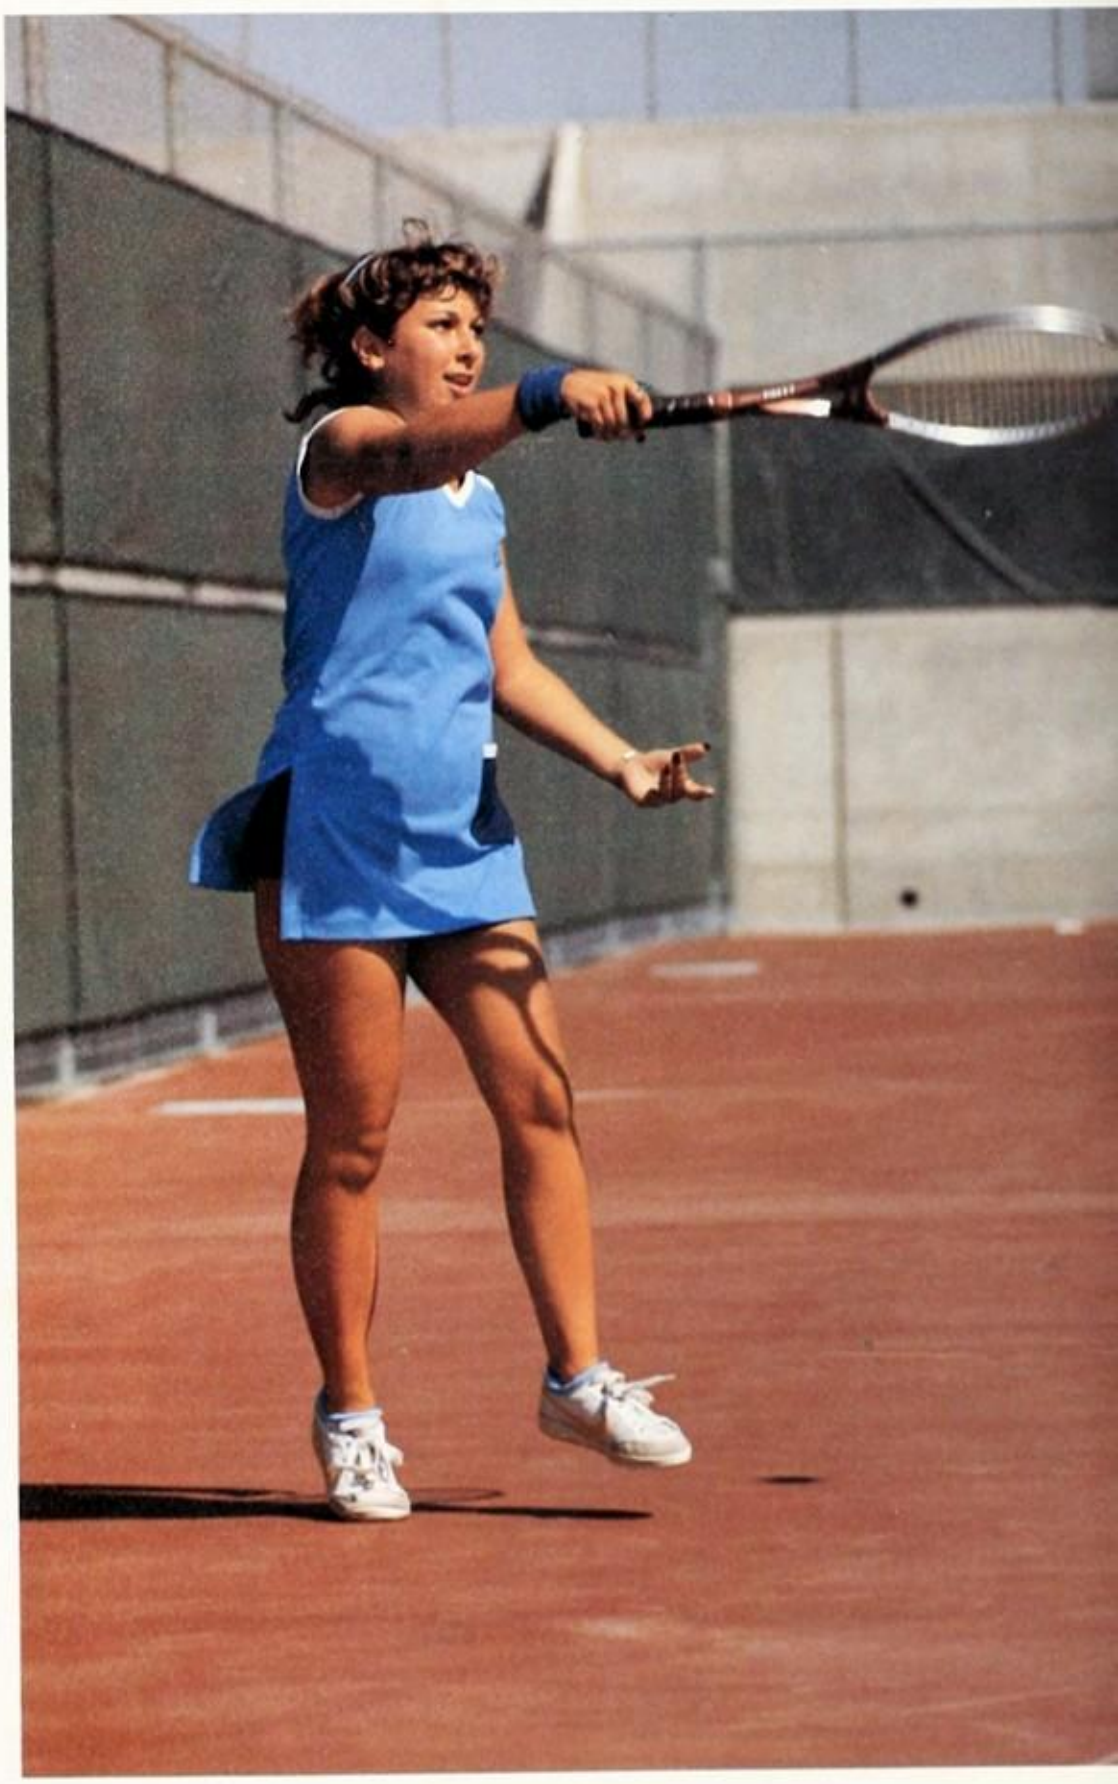
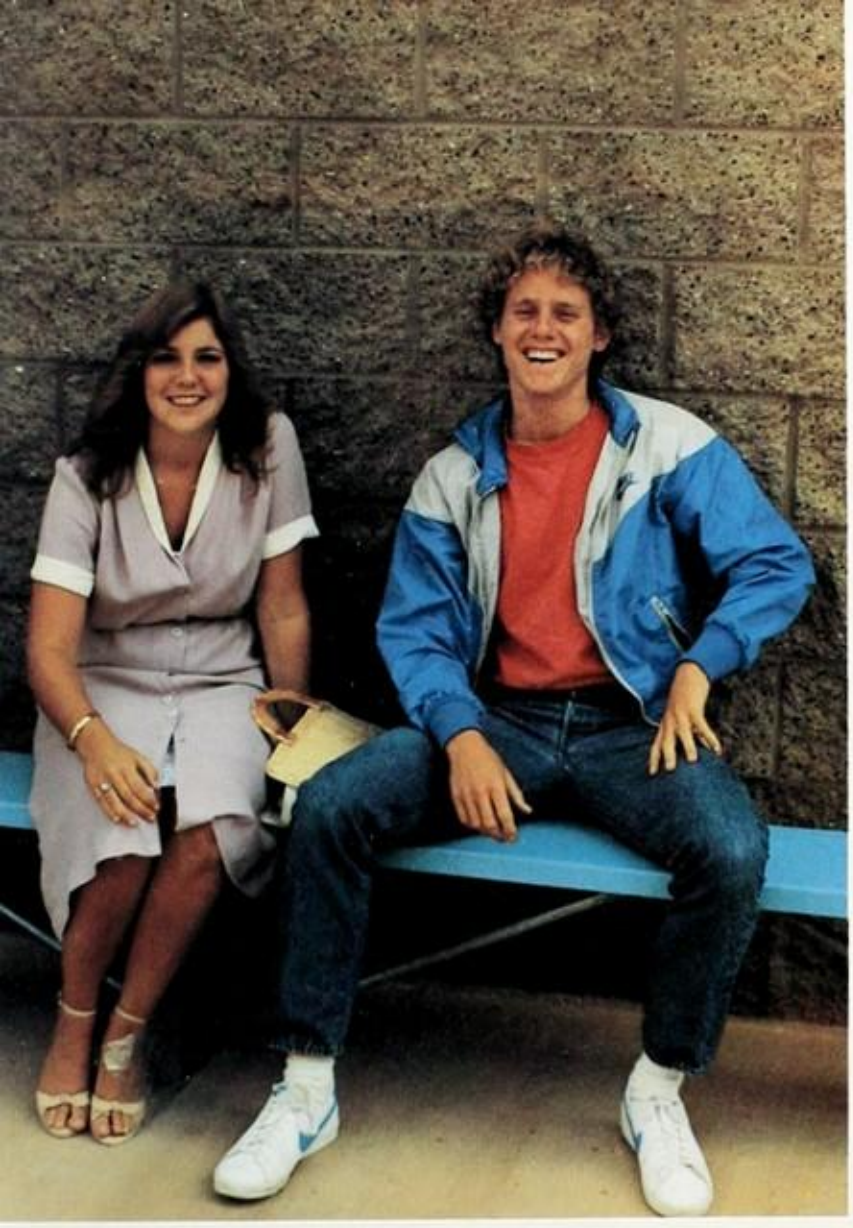
Beginnings can be confusing, disorganized, and frankly, terrifying . . . for everyone. The unknowns to be faced, plans to be implemented, traditions to be begun, old allegiances to be set aside, and a new direction toward togetherness, made even the stout of heart hesitate . . . then plunge ahead . . . full of eagerness and anticipation. However, our beginnings did not occur spontaneously. They were planned, organized, modified and adjusted. Nothing was left to chance. So it would always be with our school . . . UNIVERSITY CITY HIGH SCHOOL.



Whitney Geer shows off her powerful forehand.



UCHS was dedicated to educational excellence and began this tradition through careful selection of administration and certificated and non-certificated staff members. Hundreds of applicants for department chairmanships and staff positions were received, screened, and interviewed. The teaching staff was selected for their ability, experience, diversification of backgrounds, and interests. Throughout the year they developed into a closely knit team, imbued with a single purpose ... the finest educational experience possible for all students in attendance.

Our student body was uniquely different as well! The junior class was primarily drawn from Clairemont High School and ultimately functioned as the upper class, while the sophomore class came from Standley Junior High School. The Voluntary Ethnic Educational Program (VEEP) drew students from south east San Diego and aided in providing a well-rounded ethnic mix during the year.

Some of our students were surprised to learn that the school curriculum was academically oriented, with each student enrolled in six classes per day and a large percentage of them planned to pursue further education after graduation.

Each person had ample opportunity to take advantage of the school district's finest facilities. Industrial Arts, Science, Physical Education and the Math departments were just a few examples of educational areas which offered opportunities for the students who wished to avail themselves of them.

A large majority of the student body quickly and completely emersed themselves in participation of general activities such as sports, student government, and clubs and organizations, while many parents involved themselves in the Citizens Advisory Council, which dedicated itself to the total welfare of the students. This group became deeply involved in curricular implementation in all academic disciplines.

The new solar unit experiment added its uniqueness to UCHS also. This solar powered heat and air-conditioning power unit provided the latest in energy innovation in Southern California and attracted visitors from around the world. Certainly, UCHS had the most completely modern energy plant available.

The opportunities provided by the school brought with them certain responsibilities. We learned to work together in the spirit of unity, to set aside old allegiances, and to strive together toward common goals. These goals just started to become reality, and were an ongoing quest. We started well, we made gains, however, no matter what results we achieved, each of us knew that we had truly only just begun.

Dedication

Controversy . . . UCHS was conceived in controversy, became a focal point in the community and became a reality, with an obvious community committment to quality education for all young people.

Fifteen years ago the conceptual groundwork for a new community high school in University City was begun. During the insuing years the issue of construction on the present site became a polarizing influence within the community. Issues were brought forth in favor of construction and opposing viewpoints were also forcefully presented, and community members in both camps became dedicated to their causes.

The integration issue introduced by the Carlin Case proposed that the new school was not required and, in fact, would serve an ethnic majority while precluding racial balance within the San Diego Unified School District.

A group of citizens, who became known as the Edmonton Group, voiced the belief that the current site plans were strategically dangerous because of the proximity to the Miramar Naval Air Station jet flight path, thereby creating a dangerous safety factor for students in attendance.

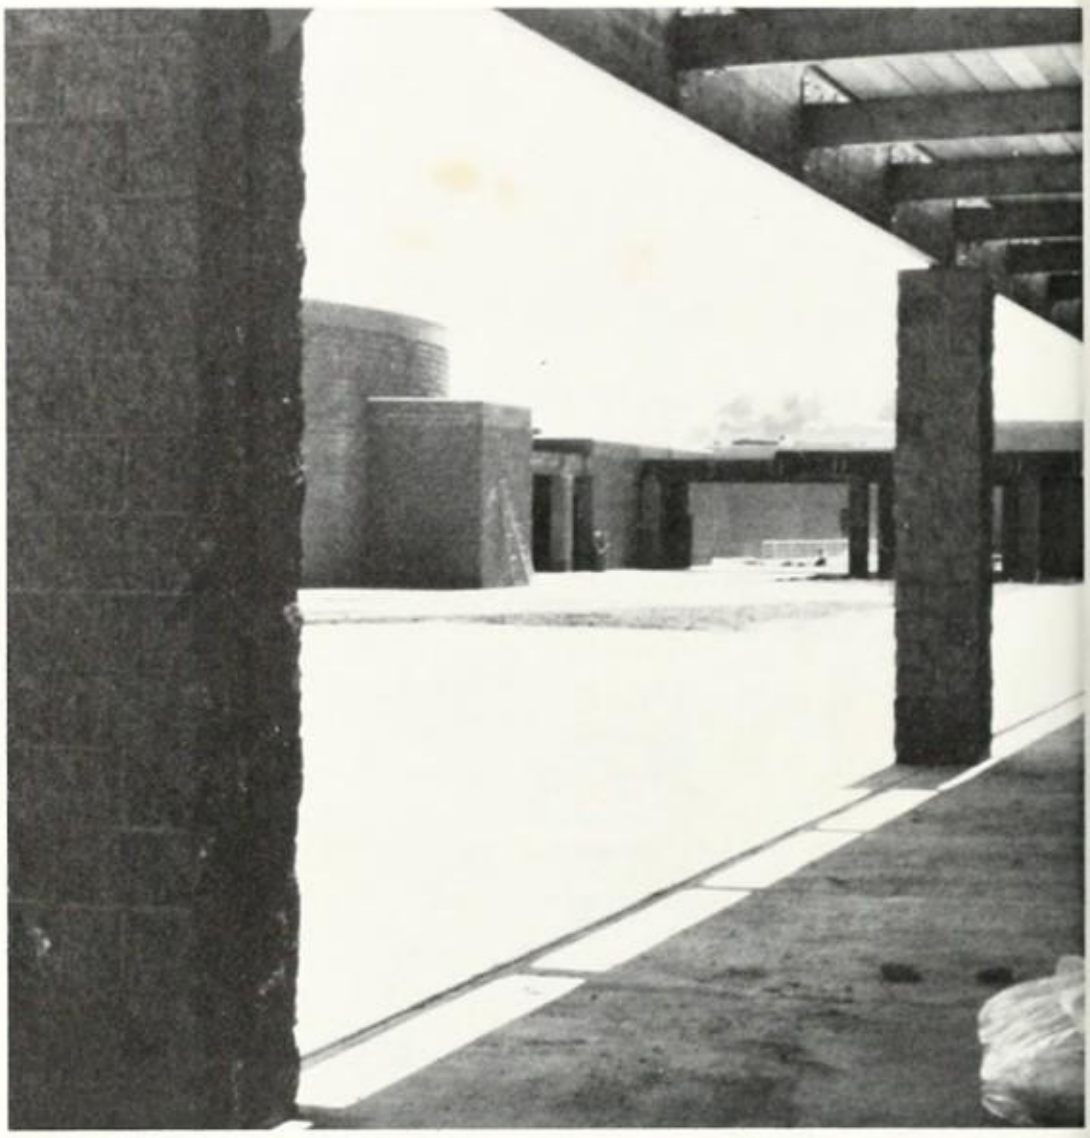
As always, the financial considerations also became a burning issue. The original plans called for a two-story building with an original estimated cost of twelve million dollars. Bonds were approved in that amount; however, as time passed, construction cost estimates soared concurrently with the rising inflationary spiral until an estimated cost of twenty-one million dollars was projected. The cost increase became another point of controversy and ultimately created negative attitudes relative to plan and construction approval.

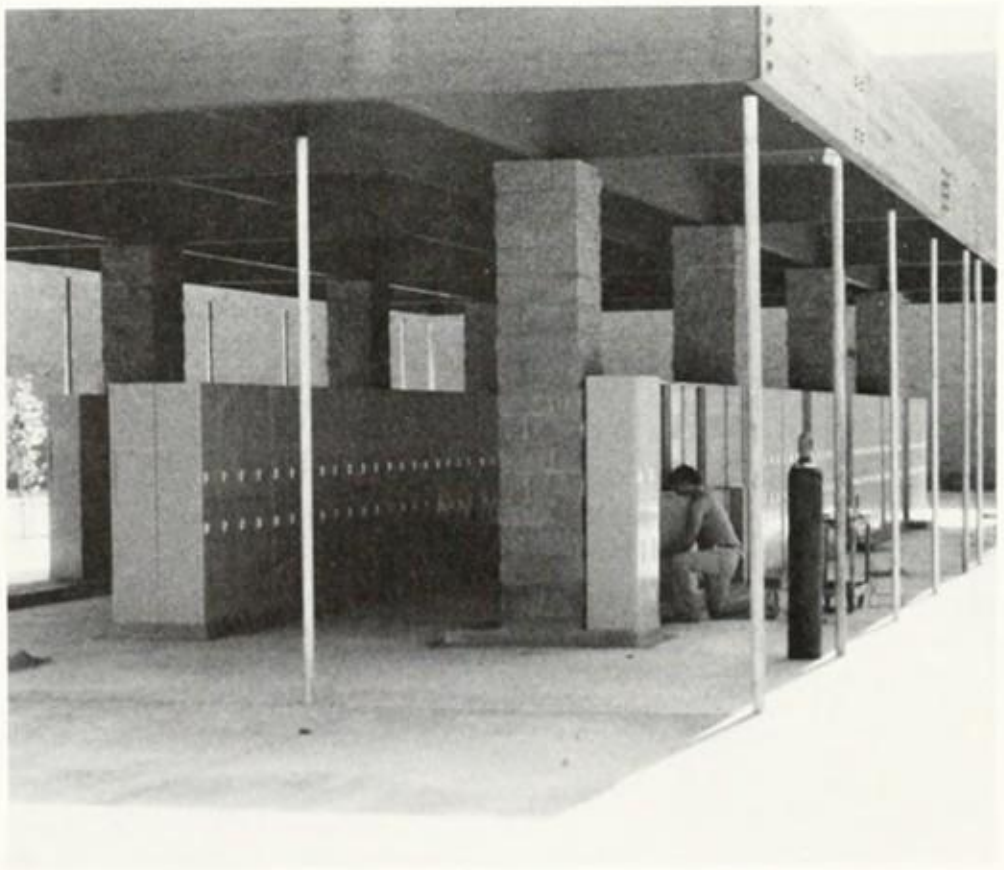
Many citizens within the community, sensing a need for a school, bonded together to form Citizen Friends of University City High School. The members of the community, dedicated to the concept of the high school, worked diligently to bring to the public a clear understanding of the need for the school construction. Thousands of hours of meetings and discussions took place, site development plans were examined for ways to reduce the total costs, safety evaluations were made, and ultimately the school construction was approved.

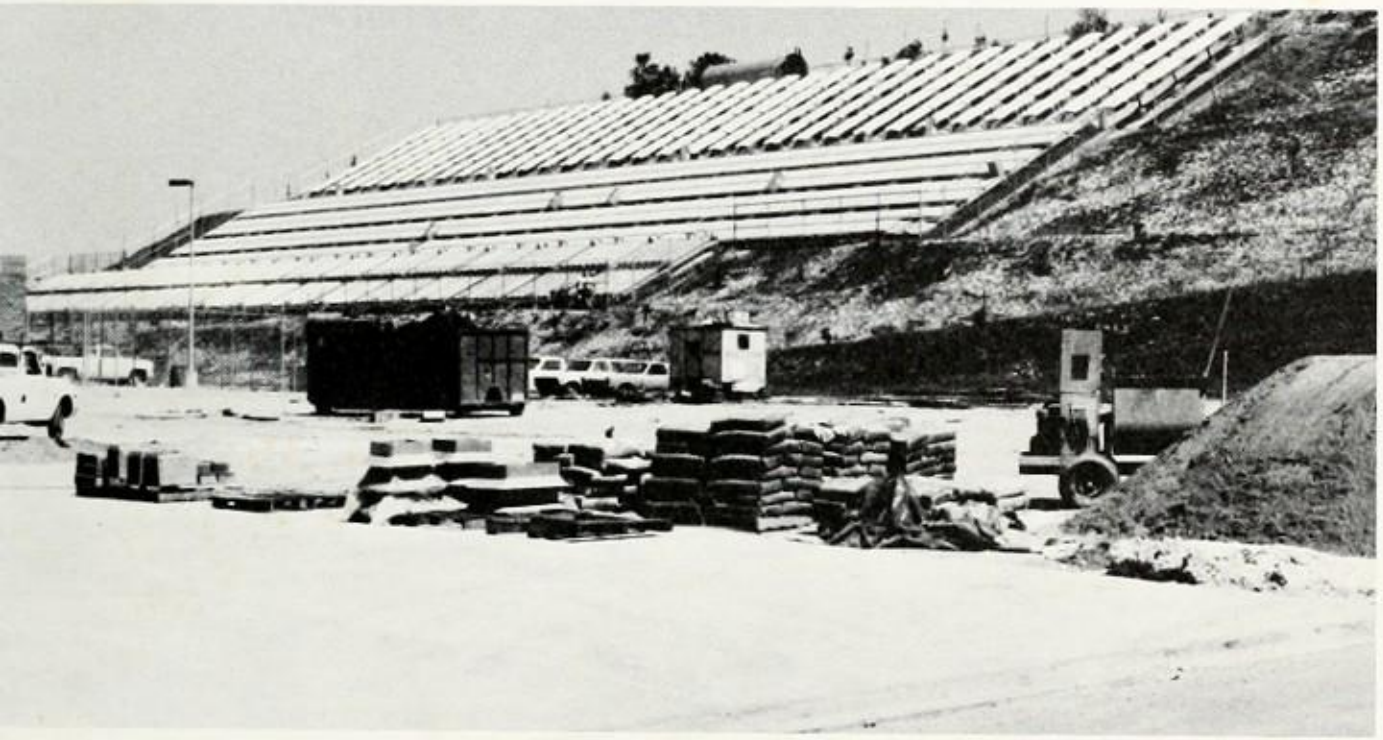
UCHS was to be built and modifications of the original plans were completed, thereby reducing the final cost to 17.3 million dollars. Upon opening the doors of the school, the students and the community were pleased to note that all of the work which had proceeded had not been in vain.

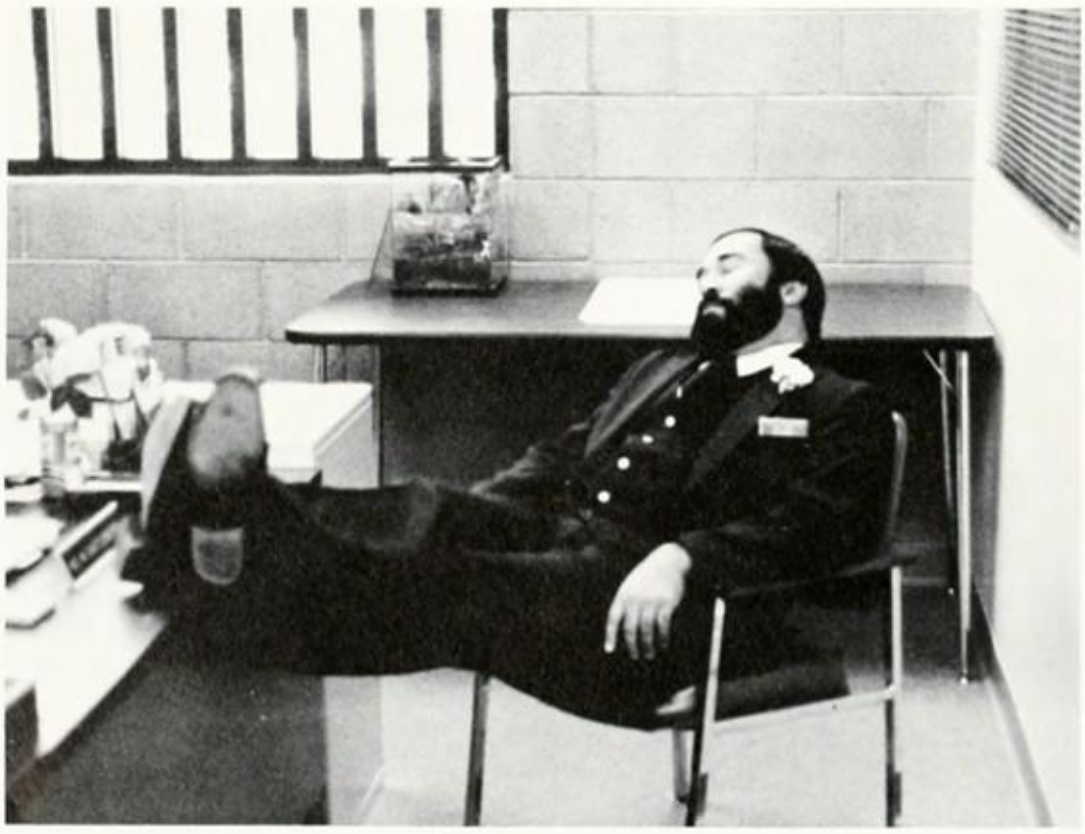
The planning, construction and ultimate staffing were so carefully orchestrated that UNIVERSITY CITY HIGH SCHOOL began classes in an atmosphere of confidence, purpose and dedication.

We, the yearbook staff of 1981-82, dedicate this first edition to the University City community and all those citizens who have expressed their feelings and concerns. University City High School is a symbol of democracy in progress and has only just begun.









Administration-Faculty-Staff

Administration

Principal: (prin'se pel) adj 1. First in rank authority, importance, degree, etc. 2. that is or has to do with principal. 1. a principal person or thing; specif; a) a chief or head b) a governing officer, specif. of a school.

The definition of a Principal just touches the surface of all the responsibilities and qualities of our Principal, Mrs. Catherine Hopper. Mrs. Hopper is not only head of University City High School but is considered a friend to all who know her. She is enthusiastic and dedicated to our school and to all the students who attend. She considers this first year of University City High a building year. She is striving to build a school which has a strong reputation of achievement in academics as well as in other areas. She has one special goal this year . . to develop strong leadership skills in students and to give them a feeling of self-confidence and pride which they can carry with them throughout their lives.

All of these qualities make our Principal, Mrs. Hopper, one of the best in her field.

Mrs. Hopper, Principal, works on the master schedule.

Ms. Castleberry confers with a student.

Ms. Mary Castleberry, who transferred here from Pershing Junior High School, is one of two Vice-Principals at University City High School. Ms. Castleberry is the ASB administrator. She helps plan activities and helps set budgets. She is also the main problem-solver with the cheerleaders, and is the representative of the PTA. Ms. Castleberry felt our first year here was a growing and expanding year, in which we grew in school spirit, human relations, academics, and extra curricular activities. Ms. Castleberry felt our first year was an example for all years to follow. Mr. Joe Tafoya is University City High School's other Vice-Principal. He transferred from Madison High School which was a school of 2600 students. He feels the difference in enrollment of students does not matter ... general attitude counts. Mr. Tafoya supervises ground maintenance, the lunch area, and the parking lot. He is also in charge of the general supervision of the teachers, budget planning and helps them order supplies. The area of athletics is another of his responsibilities. He aids in scheduling sports meets and games, is in charge of all the paper work for ordering equipment, checking eligibility and keeping attendance records. Mr. Tafoya hopes that students view him not only as an authority figure but also as someone they can tell their latest jokes to.

Ms. Castleberry takes five minutes from her busy day.

Mr. Tafoya takes a quick break after school.

Mr. Tafoya converses between classes.

Counseling

The first year at University City High School was a great success due to the tremendous counseling staff lead by Dr. Boyd Gilliland. Dr. Gilliland was selected as head counselor well in advance of the end of school last year, so that he could start the planning and enrollment process for University City High School students.

His job was made easier with the help of Ms. Sandy Brookes and Dr. Weldon Keating, who were appointed as counselors last summer. It was during this time that the plans for the opening of school were worked out.

Throughout the year U.C.H.S. counseling staff solved difficult problems which enabled our school to run smoothly and efficiently. Their main disappointment was that there was not enough time in the day to devote it to all the necessary problems of their students. Their enthusiasm for their job and their attitude towards the staff and students helped make the counseling department the tremendous success it was.

Classified Staff

The Classified Staff at University City High were many of the people who kept our campus looking and running smoothly. Our campus reflected the constant effort of the Administrative Assistant, the gardeners, and the custodians. The secretaries did an outstanding job to keep everything in order. The cafeteria workers were hampered by construction problems, but still managed to have things ready each day. Those who became ill knew that the nurse would be there to help just as the guidance offered by those who worked in the Media Center. Because of the efforts of these people, University City High School was a better place.

Academics

Science

Mr. Reed, Mr. Owen, Mr. Asakawa, and Mrs. White were all part of the excellent science staff at University City High School. They taught a basic biology class, a chemistry, and a physics course. Students worked on different labs such as observing organisms through the microscope and learned about blood typing. Next year, the Science Dept. anticipates adding two new classes to the science program, Marine Science and Science Survey. Marine Science consists of marine biology and oceanography and Science Survey will be a general introductory course into chemistry, biology, earth science and physics.

Mathematics

Although it was a first year at U.C., it did not interfere with the variety of mathematical courses available to the students. Classes were offered to fullfill the needs of everyone. The Math Department not only consisted of the basic courses and college prep courses, but also a computer club and even a math team.

Social Studies

History is one of the requirements that every student must take during high school. "It is the study of mankind, development of past and present," states Mrs. Maple chairmen of the Social Studies department. Trips to many different museums for enrichment were one of the activities that were incorporated within the cirriculum. "History helps us as a person become more aware of each other," commented Mrs. Maple. The highlight of the year for the department was the Renaissance fair.

You're not really going to write that, are you?

English

For this, the first year of University City High, our English Department was absolutely fantastic. There were advanced classes as well as general learning classes. U.C. High also had a program called English as a Second Language which was taught by Ms. Peterson who also taught the advanced sophomore classes. Mrs. McGowan, the advanced American Lit. teacher and head of the English Department, deserved credit for such a well organized department.

Foreign Language

U.C. Highs Foreign Language Department consisted of Spanish, French, and German. The chairman Mr. Viana felt that we had a great staff and were able to work together successfully. He felt the school had progressed well during the year. Some teachers considered it a challenge to teach at U.C. for its opening year and are planning to continue for years to come.

C.S.F.

The California Scholarship Federation is an honor organization established for the purpose of fostering high standards of scholarship, service and citizenship on the part of the students of the senior high schools of California. To be eligible as a member of the C.S.F., a student must have a grade point average of 3.5 or higher. Membership in the C.S.F. is very beneficial to students. On graduation, a special seal of merit will be received on their diploma and on all college transcripts and they graduate with honors.

Newcoming

November 20th, 8:00 pm marked the night, U.C.H.S. held their first semi-formal dance. The X-Offenders and a disc jockey supplied the music while the ninety attending couples made it a success. Although it was held in the gym, the ASB did a wonderful job of recreating a usually athletic atmosphere into one of excitement and fun. The theme "We've Only Just Begun" was more than appropriate for the evening, and made it one for all to remember. The name "Newcoming" was given to our semi-formal dance based on the premise of no tradition. Since everything was new at this site, a catchy name was needed to promote the dance.

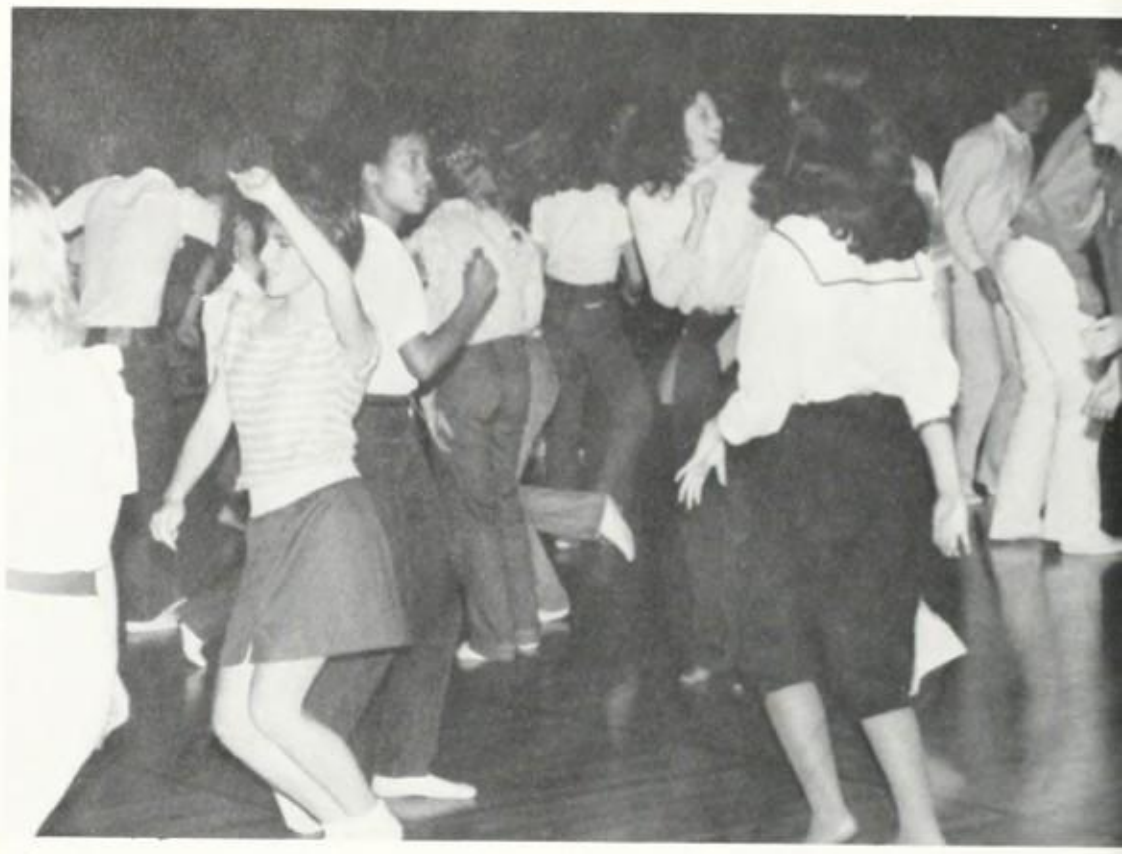
Dances

Although our school was new, traditions never change, and dances were not one to be forgotten. Dances are the unforgettable times that make the school year memorable. The first dance of the year took place in the gym in September, with music provided by a local band called Tastey. The last basketball game of the season was followed by a dance with a disc-jockey from 13K who provided the music. P.T.S.A. was a great help in promoting and sponsoring after game dances, to keep school spirit and enthusiasm going strong.



Students enjoy, listen, and dance to the music.

Pep Rallies

This year's pep rallies brought out enthusiasm and spirit in the sophomore and junior classes. Pep rallies encouraged people to participate as spectators at various sports events. The cheerleaders organized activities in which the classes competed against each other. Clapping, cheering and yelling of the cheerleaders kept the spirit alive. The main purpose for the pep rallies was introducing the sports activities and building school enthusiasm.

Spirit Week

This year's spirit brought out all the enthusiasm and originality in the student body. The A.S.B. officers, advised by Mr. Yandall, did a terrific job in promoting the spirit. The week of December 13-18 was designed as "Spirit Week". Prizes were awarded on Toga Day, Holiday Day, and Preppy Day to encourage participation from the students. Other activities included Mr. Owen getting "Creamed" in the "Pie in the Face" contest. The canned food drive and the proceeds from the "Pie in the Face" contest went to needy families to celebrate the holiday season. All in all, this year's spirit week was one to be remembered.

Powderpuff

The first traditional Juniors vs. Sophomores Powderpuff Football game was held at U.C.H.S. Stadium on February 24th at 3:00 pm. The teams were set only a week ahead with 3 days of official practices. With Ed Yandall as head coach of "Yandall's Yoyo's", and Rob Coons as head coach of "Coons Crazies" along with volunteers from the football team, the girls were in for a workout. By game time, anticipation was in the air, and the girls were ready to go. Although the first half was eventful, it ended scoreless. The second half was action packed with both teams rallying to score with minutes left the Sophomores lead 12-6. The Juniors had a last minute play that would have tied it up, but was called back and the game ended Sophomores victorious. It was a premiere game that all enjoyed.

Variety Show

Lights dimmed, the crowd roared. University City High's first variety show began. The variety show was filled with sixteen extremely entertaining acts, which varied from staff singing and dancing to a comedy skit by the Drama Club. Mrs. Mendoza, organizer of this year's variety show predicted an exciting outcome. She also commented on the exquisite talent of the performers. Students, as well as staff members worked long and hard to make this show a success and their determination was well expressed in their performances. Brian Duncan stood out among the other performers with an incredible piano solo, and The Press, a rock band formed by students from U.C. High, excited the crowd with an outstanding performance of The Rolling Stones' "Start Me Up". Despite Mrs. Mendoza's comment that the show was not well organized, the performances were a tremendous success.

Powderpuff Cheerleading

Those few guys who were brave enough to put on a skirt and show off their legs really did a great job as the 1982 Powderpuff Cheerleaders. They took time out to learn and practice the cheers. They participated in a pep rally and performed cheers at the powderpuff game, topping it off with a pyramid. Hopefully, they started a tradition for the coming years.

On The Job

For many students, working meant extra responsibility and maturity because of their role. Every student maintained their studies while keeping sensible work hours. Some student employees were enrolled in work experience, which allowed them to leave school early so they could work and still get credit for the time they were out of school.

Students had jobs at various facilities like Jack-In-The-Box and other fast food restaurants. A big source of jobs was the University Towne Centre. Many were employed there and benefitted greatly from their jobs. It gave them a greater sense of responsibility, maturity, and independence.

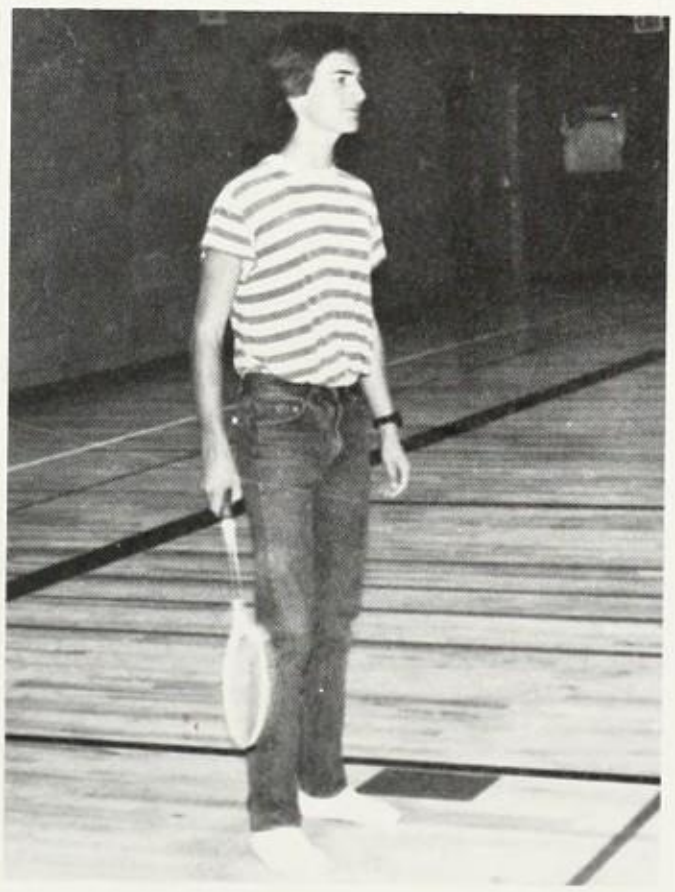
Students From Other Countries

Ann Hole is student from Norway coming to San Diego with her family because of her father's employment. Ann's interests consist of going to parties and listening to music. Some of her favorite groups are The Talking Heads and David Bowie. Some of the changes in Ann's life are her school day as in Norway they are required to attend seven classes in a very large school with the class periods being shorter. "It's nice here, but I wouldn't want to live here in the U.S. forever because I miss Norway", commented Ann.



Bjorn Romberg is from Sweden. He and his family are here because they wished to retire in the United States and decided to settle here in San Diego in 1980, "Going to school here is academically harder but more fun" stated Bjorn. In Sweden, students do much the same as they do here such as going to parties, movies and listening to music. Bjorn enjoys listening to New Wave as well as playing soccer and skiing.

Drahoslav Lim is involved in many different activities such as music, having played in a dance band in Czechoslovakia, playing soccer and electronics, Drahoslav has found that living in San Diego is drastically different than his native Czechoslovakia.

Faculty Basketball

The teachers and custodians were decked out in uniforms in preparation for a good basketball game. With faculty consisting mostly of coaches, the custodian's out look was not bright. The custodians showed more heart and determination and pulled out a slim victory with a final score of 36-34. All of the crowd agreed that the players played up to their potential of unexperienced basketball players. The game was enjoyed and helped University City High School begin another tradition.

Drama Production

U.C. High's first Drama Production was a tremendous accomplishment. The drama class put in many hours of hard work to make the show successful. Mrs. Mendoza, the drama teacher supervised the dedicated young actors and actresses in preparing for this production. The drama class performed a melodrama. "I am pleased with the abundance of talent in the students", commented Mrs. Mendoza.

Memories . . .

Here I am,
playing with those memories again.
I thought by now time would set me free,
but those memories keep haunting me.
I still picture me holding you,
it's a feeling I guess I never out grew.
Each and every part of me has tried,
but only you can fill that place inside.
On my own,
I've tried to make the best of it alone.
I've tried everything to ease the pain,
but only you can stop the rain.
All those memories keep crashing through,
I can't go on without you.

I Am Your Shadow

Hey look at me,
I follow you every day.
Yet you may only see,
me by sun light.
But some night when
the moon is shinning bright,
You will see me again.
Look I am the one against the wall.
Look again, the moon
went through the clouds.
Here I am behind you.
Did I scare you?
Don't be afraid.
I don't mean to
frighten you.
For I am your
friend for life.
I will see you
again sometime.
For now I will
say goodbye.

All We Ever Will Be

I know this is all
that we ever will be,
I know this is as much
as you'll ever want me.
But just for tonight
let things be alright.
Just hold me near you,
though I know my dreams
will never come true.
And I promise to you
that I really do see,
that this is all
that we ever will be.

My Love ...

My love is deeper than the ocean,
My love is higher than a mountain,
My love is stronger than life itself,
My love can not be taken, it must be conquered.

those who are strong and bold and will
accept it with the utmost love in return.

The Dream

You came to me,
In the middle of the night,
I was fraught with fear,
Filled with fright,
I was scared to death,
Didn't know what to do,
Afraid to move,
But that didn't stop you,
You kept coming toward me,
Ready to jump,
My throat was dry,
With a growing lump,
I tried to speak,
But no words came,
Then suddenly you were gone,
With no one to blame,
I realized just,
At the time of awake,
You were only a dream,
"Oh, for Pete's sake."

Take A Look

It's time we take a look,
In the things that pass our days,
These things you won't read in a book,
They're things learned along the way,
It might be an uphill road,
But you must not let that stop you,
Be strong, fast thinking, bold,
Then nothing will get by you.

Where Am I . . .

Looking for something
beyond, into the future.
You want it to come
up so fast.
To accomplish the
life you dream of.
You want to be high
in life, not low. So
low not being able
to reach the pedestal.
There is so many
locked doors, that
you need to open.
To open up yourself
looking for a new
tomorrow, bright
and beautiful.
Living in a fantasy
world. Once again
lost in a crowd.
Where am I . . .

As The Days Go By

As the days go by
And the clock ticks on
We hardly even realize
what's already gone
We've lost our yesterday's
But we have our tomorrows to live for
Whatever our past
Our future's much more
We've all had our heartaches
We've survived them 'til now
Let's leave them behind us
Let's make this a vow
For We've all come together
From there or from here
We've only begun
This is just our first year
But we mustn't be separate
We must be just one
It's got to be all
Or it's got to be none
But together we'll make it
We'll all do just fine
We'll be first in our glory
We'll rise and We'll shine
My friend, we've been through
What more others can say
We'll look back and remember
How we loved in our day
And, as the days gone by
And the clock has gone round
We'll just then have realized
What we'll have already found

CLUBS/ORGANIZATIONS

Varsity Cheerleaders

Leading off the school spirit that was "Better than Ever" this year was a spectacular job done by the first Varsity Cheerleaders of University City High School. The honor of being Head Cheerleader was given to the friendly, smiley face, Olivia Price. She had alot of responsiblities and handled them all really well. They attended the USA cheerleading camp at UCSD during the summer and received many awards and ribbons for their outstanding performance. They also came in second place in a cheerleading competition between other schools. "We did work really hard, practiced everyday, planned and organized all of the pep-rallys, and some of the school activities," noted Shawna Kaylor, "but cheerleading was worth all of the effort we put into it. We had a super year."

J.V. Cheerleaders

The 1981-82 J.V. Cheerleaders led our teams on to victory. Although elected late in the year, this year's squad consisted of six girls willing to put time and effort into something they believed in. Many hours of dedication and cooperation under head cheerleader, Buffy McGuire, were needed to produce the zealous atmosphere attributed to the games, and a close bond was formed between the girls. Team work, is what made the year a success!!

Key Club

Key Club membership was available to all students with enthusiasm for community and school involvement. Mr. Price, club moderator, held regular meetings every Wednesday during lunch in his room, Room 436. The local Kiwanis Club provided leadership and direction when requested and also aided the club throughout the school year. During the summer months, statewide conventions were held to provide club members with the opportunity to share experiences and common expectations so that they could return to their individual schools and provide positive leadership roles.

Environmental awareness was a key issue during the year and club members became involved in community service related activities. The major fund raising event took the form of the 1981 Christmas Tree Sale held at Standley Park. Key Club membership provided each individual with an opportunity to become socially aware and community conscious.

ASB

U.C.H.S. ASB Cabinet had a tough job getting students interested and involved in the activities going on, because it was a brand new school. The ASB had to start new traditions and encourage the students to be more enthusiastic about attending U.C.H.S. ASB advisor Mr. Yandall comments, "The ASB of 1981-82 probably had more hurdles to overcome than any other ASB I've ever known. Saddled with creating new traditions and establishing a fun and positive attitude, or first ASB met this challenge head on, with great success." With a year of practice, next years ASB will be more organized and run smoother. Through this first year our ASB Cabinet learned to work together as a group to improve school activities.

Amata Club

The Amata Club did a superior job this year serving our school and our community. Lauri Cleveland, the club's president, explained about the club. "We are a branch of the "Z" club, an international service organization. We named ourselves the Amatas, which stands for friendship and service." The club was made up of approximately thirty girls from U.C.H.S. and they met the second and fourth Thursday of every month. During their meetings, they planned activities and fund raisers for the year. Some of the activities the Amata Club did was answer telephones during the Cerebral Palsey Telethon and ushered at the U.C.H.S. benefit concert at U.C.S.D. They raised money through bake sales, to pay for the carpet in the office. Advisor, Mrs. White, assisted in planning the Amata Club's activities and helped to make a very successful organization.

Computer Club

This year's computer club was under the supervision of Mr. Michael Price. Lacking a specific club curriculum, the students worked independently on self-initiated projects. The programs they developed included utility management, games, color graphics, and conic section applications. In addition, the students also wrote computer programs to serve the school in the areas of budget, inventory control, sports statistics, and accounting. The club membership held steady at fifteen members, however, many more students showed an interest and participated in club meetings and outings. With a goal of computer literacy for the staff and students of U.C.H.S., the members of the computer club looked forward to expanding the roll of computers in the lives of the persons at U.C.H.S.

Yearbook

"A lot of thought, talent and imagination went into designing a style of our own," replied co-editor-in-chief, Rob Vance, "we were a new school and just starting out, we could develop a trend for annuals in future years." During our first year as U.C.H.S.'s Excelsus staff, we experienced many obstacles. Minor mishaps arose because of an inexperienced but highly motivated staff who worked together as a unit during the school year, as well as devoting their own time on weekends and holidays for critically demanding deadlines that had to be met. With constant and unyielding support and guidance from staff advisor, Mr. Rob Coons, we recaptured memories that all could enjoy of an unforgetable first year. Although we worked hard, the real pay off came when the annual was finished.

Ski Club

The 1981-82 Ski Club at U.C.H.S. had a fun filled year of skiing. The first scheduled trip of the season took place at Mammoth during the last weekend in February. The ski report had said the conditions were great, so everyone was excited and ready to go. The bus left Friday at 3:00 P.M. with 40 students, for an 8 hour ride to Mammoth. The Ski Club stayed in condos which were located about 15 minutes from the slopes. There was a wide range of skiers, from the beginners to the most advanced. The Ski Club advisor, Mr. Yandall, commented, "I think everyone had a fantastic time, no matter what their ability. I hope all our ski trips will be as much fun."

Student Store

The student store, this first year at University City High School was a great success. The store sold foods, school materials, T-shirts etc. It was flocked with people before and after school and during lunch. Throughout the year students enjoyed the benefits of having a store close by to purchase needed items. People involved in ASB worked in the store. ASB adviser Mr. Yandall comments, "The store exists for the students so that we try to cater to students desires and needs within the framework set forth by the San Diego City School district." Proceeds from the store went to ASB funds and these funds helped ASB to sponsor the activities that went on throughout the year.

This club was opened to all graphic arts students. Enthusiastic students came in after school every Wednesday and received extra credit points. The Graphic Arts Club allowed students to get ahead with their work and assignments because one hour of regular class time was hardly enough. Students worked with various projects such as photography, silk-screen and offset. Doors were opened to all people who were interested in playing the challenging, skillful game of chess. Tournaments were played on a ladder where the students went up and down, according to whether they won or lost. The club met during lunch, and was supervised by Mr. Asakawa, who commented, "the club was just outragous."

Literary Publication

University City High School's own magazine was created by our own talented students. The magazine includes poems, artwork, short stories, photographs, and musical compositions. The students were allowed to enter anything creative to contribute to the magazine. The advisor, Madelon McGowan, had a very promising and devoted staff who did a very well done job this year. The magazine comes out only once every year, but when it does it is well worth it.

Newspaper

Reporting news was definitely a challenging job. The staff of the Commander was able to present to the Student Body a variety of news features and editorial articles. Even though the staff was made up of students new to journalism, this didn't handicap the performance and production of the first year's papers. Staff members combined their talents and special skills in assemblying the first series of the Commander by writing copy and taking photographs. Although sometimes an edition became a struggle, certainly all the work was more than worth the effort when the final product was released. The students definitely were successful throughout the entire year. Through all the laughter and arguments, the staff published many memorable editions.

Fishing Club

There were many students interested in fishing at University City High School. They met every Friday during lunch to plan their trips, and discuss the different types of fishing equipment to be used for various excursions. One of the many trips taken by the club was to Otay Lake for bass fishing. The club was interested in both fresh and salt water fishing and, "We will go anywhere to fish", said Michael Greening. This feeling was shared by many members of the club. Thanks to their enthusiasm the club was a great success.

Drama Club

The 1981-82 Drama Club consisted of 25-30 selected students who had to endure try-outs to become members. Stephanie Wells was president of the club, which met once a week at lunch time and after school to discuss other types of drama and art activities throughout the community, and practice for their spring comedy. The club took extra time to design their own stage and props, because there was no designated stage production class. The spring comedy went over well with many students and parents attending for an evening of fun and laughs. With a year of experience behind them, we can look forward to a successful and talented group for the future.

Race/Human Relations

The Race Human Relations program at University City High School, was an organization that helped solve many of the racial problems. Mr. Wong headed the program which included members of the faculty, administration, classified staff, and parents. Another program that dealt with Racial problems was ESAA. ESAA included students from all different races and backgrounds. These students worked together as a group to achieve their main goal, which was to make U.C.H.S. a better place for everyone.

Auto Shop Club

The UCHS Autoshop was the most utilized repair shop in the San Diego school system. Mr. Pat Scanlan, the instructor, felt that it should be used to the maximum, therefore, he invited his students to come in after school on their own each Wednesday to use the facilities. Students worked on their cars or helped restore a car that was a special project. It was determined that at the end of the year a lucky student was to receive the project car through a drawing of names.

Choir

Although this year's choir was made up of many beginning singers, they worked hard to perfect their sound. "I was very pleased to see so many students interested in the choir," stated Mr. John Gilliland, the choir's Director. "The size of the class nearly doubled second semester".

The students were taught fundamentals and sang a wide variety of music. "He's a great teacher. He really knows what he's doing," commented choir member, Steve Multer.

By selling M&M candies, jewelry and mistletoe, they were able to finance their yearly activities, such as the purchase of their uniforms. They held performances around the county which included a city festival, various performances within the community, and a Winter and Spring Concert.

Football

This year's centurion football squad had great team potential to do their best. They went on the field, whether to practice or to play a game, determined to give one hundred percent to the U.C.H.S. cause and bring home victory. Although this year's squad was only Junior Varsity, their competitive attitude and courage enabled them to play at the high school level of Varsity. Each time they competed at the Varsity level they surprised everyone with their excellent style of play and great ability by the skilled centurion coaching staff, headed by Coach Steve Vukojevich. The football players unity as a team was one big factor in their success. This unity allowed them to maintain team spirit, which was greatly needed.

Varsity Baseball

U.C. High's first Varsity baseball team was abundant with talent, though they lacked in experience. "Like any high school team, we're building up for next year", commented Coach LaMotte. About seventy five people tried out for baseball, and it took two cuts to get down to the thirty best ballplayers, fifteen on Varsity, and fifteen on J.V. There was one sophomore on the Varsity team, the rest were juniors. "This season we don't expect to win many games, but we will play well. Especially our defense", was Coach LaMotte's final statement.

J.V. Baseball

The Junior Varsity Baseball team were primarily sophomores this year. Although they had little experience with high school level baseball, they played with a winning attitude. The team consisted of 15 hardworking and dedicated players. Their practices included running, batting and fielding, with an emphasis on teamwork. They showed a solid pitching staff, and as stated by Coach Vukojevich, "They are good prospects and competative at the J.V. level."

Front Row: J. Nichols, M. Deguzman, J. Jacobs, K. Parks, B. Clark, M. Nunes. Back Row: K. Cashman, T. Vanden Berg, B. Braddy, F. Hilgers, G. England, B. Clark, S. Jones, M. Fabrizio.

J.V. Boys' Track

"On your mark, get set, go!," was exactly what our first University City High School Junior Varsity Track Team did. This year's track team really put their "right foot" forward toward a winning season. They all worked very well together to make a solid J.V. squad even though track is such an individual sport.

Their coach, Mr. Mitchell, really enjoyed working with them and felt that "we will be a Powerhouse in later years." The practices were every day after school until about 3:30 and were used as a training ground for the Varsity level. The performance of the player during practices, was decisive as to who ran J.V. or Varsity at the next meet.

Varsity Boys Track

The Varsity Boys Track Team did well in competition this year. Their practices were held every day after school until 3:30 p.m. Group practices consisted of jogging around the track and stretching out. After warm-ups they broke up into four different groups which were weights, high jumpers, sprinters, and long distance runners. Their coach, Rick Mitchell, was a former teacher and coach at Point Loma High and was very inspirational to the team. His time and efforts were spent well, ending the track season with a trip to C.I.F. finals for the top three competitors for each event. Although track is an individual sport, it took group effort to make a successful team.

Varsity Girls' Track

Girls track this year was not divided into Varsity and Junior Varsity as many schools were. U.C. High, being a unique school, has an A-Team and a B-Team. Each team would help out the other, that is, if a girl on one team couldn't compete, a girl from the other team would take her place.

Coach Thompson was very pleased with the turnout for girls track. "Girls from all of the different sports tried out for track this year," Coach Thompson stated. Coach Thompson said, "the girls have a lot of talent and ability, I really think that they will have a good season."

Boys' Tennis

The twelve players on the boys tennis team practiced every day from sixth period until four in the afternoon. Coach Smith assisted his players in improving their performances in competitions. They competed in both doubles and singles, and practiced using back boards and ball machines.

The matches consisted of the best two out of three sets. They looked forward to playing such teams as La Jolla and Point Loma. The top seated singles player, Chris Henderson, was a sophomore and Coach Smith looked forward to having Chris for two more years.

Outside Sports

When school is finished, and the homework done, that is the time to really have fun! Besides having interscholastic sports, people have other hobbies and interests. Throughout the year, their hobbies may take them many places, from local or county competitions to recognized state or country affairs. Some just spend their time pursuing their hobbies on weekends or holidays, others who have bigger goals need to practice every free moment they get. Whether amatuer, or on to professional, you must enjoy what your doing to make it all worthwhile.

Golf

This year's dedicated team was led by Mr. Bill Wible, an experienced golfer. He taught at Madison High and was the assistant golf coach. Last year Mr. Wiebel was chosen to be the U.C.H.S. golf coach. "U.C.H.S. is a really nice school, I'm pleased to be here", stated Mr. Wiebel. The team practiced three to four days a week at Torrey Pines Golf course. Practice consisted of individual standard procedure. March 29th was their first match, which led to two representatives for C.I.F.

J.V. Soccer

Soccer was one of the many active sports that was fast catching on. Coach Viana and Coach Jacobs were highly skilled, and put together the J.V. and Varsity teams with a great deal of confidence. The J.V. soccer team worked together as an aggressive unit. With tough opponents, their skills proved themselves and led to proud victories. Soccer was one of the most difficult and physically demanding sports of the year. U.C. High soccer teams knew what they had to do to become a cohesive unit and strove to preform their best for U.C.H.S.

Varsity Soccer

The first soccer season at U.C. High School was a success. Being a soccer oriented community, the coach had a good selection of players and most of the Varsity athletes had played in other area leagues. During nineteen games and two scrimmages they performed admirably. The team consisted of Juniors and Sophomores and had to compete against Seniors. They expected a winning season. They practiced everyday and with the assistance of coach Jacobs became a well-organized team. Coach Jacobs enjoyed instructing his athletes on the many tactics of soccer. The varsity soccer games were well attended, and were supported by a soccer oriented community.

Varsity Basketball

"Very enthusiastic, outstanding, determined, and eager to get started on the right foot," is how our first Varsity Basketball team was described by their coach, Mike McDonald.

Although they struggled with the tough Western League this season, they realized that getting to "the top" would be tough. And by overcoming their mistakes, each day they got closer to exceling towards perfection next year!

J.V. Basketball

Everyone was enthusiastic about U.C. High's first J.V. Basketball team. The team contained many good players and they worked hard to establish themselves as a team. In the beginning of the season they didn't perform up to par but improved greatly under the guidance of Coach Vukojevich. With at least one game a week, the team improved. Even after a defeat the players spirits were always high! Although they were inexperienced they practiced every afternoon to insure a competitive team.

J.V. Softball

"Strive to win" was the attitude that was in the minds of the Junior Varsity softball players. "Most of us have had previous experience before, but playing highschool softball was alot tougher. We were very determined and worked hard to be winners." said Heather Wilson, "We put effort into everything we did." The players all got along really well. They worked together as a team during practice everyday working on infield, batting skills, and outfield drills for approximately two hours a day. They really did a super job for their starting year and had a promising season.

Varsity Softball

"Fighters," is how Head Coach David Pais describes his first University City High School Varsity Softball team. Great team spirit and excellent coaching by Coach Pais and Assistant Coach Rob Coons resulted in a successful season.

Although lacking overall depth in high school softball, Coach Pais knew that there was plenty of talent which was not yet cultivated, so he relied on Tiffany Piper, a superb GSA pitcher, to anchor the team and start them off on the right foot.

With 100% cooperation and effort in every practice and game the others were not far behind and showed a great amount of improvement throughout the year. By the end of the season they were... Incredible, Unbelievable, Absolutely unbeatable!

Varsity Basketball

One of the most competitive girl sports at UCHS was basketball. The enthusiastic Varsity squad was led by a determined coach, Mr. Mike McDonald. He worked everyday with the girls on their skills and techniques. They practiced offensive and defensive plays for many hours. As a first year team, the girls worked well together, helping each other. One of their strongest points was their spirit and attitude which helped to make them a competitive team.

J.V. Girls' Basketball

The first season for the J.V. Girls Basketball Team was an exciting success. The girls improved throughout the season with the assistance of coach Paterson and the team consisted partly of girls who had participated in athletics earlier in the year.

It took extremely hard work to perfect their skills as after school practices were strenuous and consisted of such things as shooting drills, running exercises, and learning plays.

Girls' Tennis

"I think they're great," commented Coach Thompson. Most of the girls were sophomores who played for their first time in competition, but there were a few juniors. They first met as a team on August 31, 1981 and practiced every day for two hours. The practices were held at Standley Junior High because the courts at U.C.H.S. were not ready.

There were no tryouts this year but almost anyone was able to join the team as long as they had some tennis experience. Next year there definitely will be tryouts.

Coach Thompson doesn't know how far they'll go in competition because they are a new team and there are no seniors, however she commented "I'm proud of the team and so is the school!"

Varsity Boys' Cross Country

A lonely way to compete! Pride-that's what its all about! UCHS cross country runners pressed for personal and team excellence by testing themselves each minute, hour and mile. Every runner and team member probed his breaking point and triumphed in the knowledge that he could and did continually achieve and surpass all expectations.

Daily workouts became gruelling tests of endurance as the athletes completed four, five, six and seven miles per day. All one step at a time ... until ... at week's end, a staggering forty miles or more had been logged!

Without varsity or junior varsity status, the selfless athletes excelled individually and as team members and prepared themselves for district competition and a chance to taste victory!!!

Varsity Girls' Cross Country

Just starting out, UCHS's girls' cross country team made its debut. With no returning veterans, the girls varsity team's spirit and dedication shined through to make the cross country season a first. Through hard work, constant practice and support from each other, a unity was formed to produce a tough team. Not knowing what to expect, they surprised everyone with a trip to the CIF finals! Quite an accomplishment to end the first year!!!

J.V. Boys' Cross Country

Being a runner took a special type of person . . . the person who was willing to push himself to the maximum. That maximum was mile after mile of personal endurance. That endurance paid off as our team at U.C.H.S. was a team of excellence.

J.V. Girls' Cross Country

Just five more yards . . . These were the words that were on many of the girl's minds of the J.V. Cross Country Team. All the hours spent training and getting into shape meant so much when they saw the finish line so near.

These girls worked extremely hard, and put forth tremendous effort to achieve their goals. Their workouts consisted of running an average of forty miles per week. In order to maintain this average, they had to run a considerable amount of time with the team, as well as on their own.

Varsity Volleyball

Extremely Determined, Successful and Spirited described the first Varsity Volleyball team at University City High School. "We had no experienced players, so this year was mostly a building year, building up our attitudes, skills, teamwork and basically athletes," said Coach Scanlan. They first met as a team early in September and practiced four hours after school when the season began. "We set goals and attempted to meet them everytime we played," explained the Coach. The students really supported each other and taught as they played. They were great friends toward each other even when they weren't on the courts. The team had excellent team and individual skill. "Even when we had a loss we still walked off proud, with our heads up," replied Coach Scanlan, "there was nothing holding us back."

"We're all good, but we have to learn to work together more", replied Debbie Glazerman a J.V. team member. The J.V. Volleyball team had many good athletes but they had to work to improve individually and as a team during their first season. They practiced four hours daily which everybody thought was adequate. "Nice and supportive", said Caryn Gold, J.V. team captain, about their coaches, Ms. Scanlon and Ms. Patterson. The team was very competitive compared to other teams in our district. They were also extremely emotional and rooted for each other constantly.

Robyn-
Im so glad Ive known you since seventh grade. You are one of my very best friends. Ill never forget the time I kicked you in the... well the "secret spot" for going into our house to get your frisbee off the roof! Im sorry for brutilizing you so much. I guess I just have a bad temper. I can't believe how many ups and downs we have been through. But that's all in the past, so lets always stay friends. You are a very sweet and understanding person and Im sure you would listen if I needed someone to talk to. I hope we will see a lot of each other this Summer. Im sure we will since you live down the street. I remember the summer after seventh grade when you, Kevin, Brian Wenzel and Brian Brown used to come in my house and go into my backyard and go swimming without asking me and I got so mad. I cried and cried. I was such a baby then. That was funny when I gave Kevin that birthday card and he ripped it up in the street. That was so heartbreaking. 3rd period was fun. Mr. Patterson wasn't that bad. He's just old!! Well, Robyn I better not take up too much room. Have a killer summer and stay sweet. I love you like a brother.

Love Always,
Heidi

P.S. Thank you for coming to my sweet 16 birthday party. I know it wasn't the most exciting thing you could've done that night, but by coming it showed me you really care.
